Work Experience

PwC India

Data & Analytics

Kolkata, India

AUG'22-Present

Career Progression:

- Associate Apr'26 – Present
- Senior Analyst Apr'24 – Mar'26
- Analyst Aug'22 – Mar'24

Legacy Data Warehouse Modernization – Fortune 500 Transportation Company

Technologies: Databricks, Spark SQL, PySpark

- Migrated 100+ legacy ETL workflows (COBOL, Teradata, IBM DataStage) to Databricks, reducing batch runtime from 4.5 to 1.8 hours.
- Developed data validation frameworks, reducing downstream reconciliation issues by approximately 35%.

Platform Engineering – International Retirement Trust

Technologies: Microsoft Fabric, Python

- Built a synthetic data generation framework for 10M+ records, reducing UAT cycle time by approximately 40%.

Data Engineering & Analytics – International Technology Company

Technologies: Snowflake, SQL, Python

- Converted 60+ Alteryx workflows into Snowflake stored procedures, reducing operational costs by approximately 20%.
- Processed and deduplicated approximately 1.2M daily Salesforce records, improving qualified lead conversion by approximately 18%.

Private Equity Data Platform – International Investment Firm

Technologies: Azure Data Factory, Azure Functions, Python, SQL, Angular

- Developed an Azure-based platform automating private equity data ingestion and quarterly reporting workflows.
- Built REST APIs and real-time dashboards to support monitoring and reporting.

Education

Ramakrishna Mission Residential College (Autonomous), Narendrapur

B.Sc.(Hons) in Statistics, CGPA: 9.45/10

Kolkata, India

2019-2022

Ramakrishna Mission Vidyalaya, Narendrapur

Higher Secondary (Class XII), West Bengal Council of Higher Secondary Education — 95.2%

Kolkata, India

Project: Portfolio Insights Analytics Application (Application Link)

- Developed a Streamlit-based dashboard to track my equity investments, historical performance, and key portfolio metrics in a unified interface.

Curriculum Projects

Logistic Regression for Diabetes Prediction Among Females (Project Link)

JAN'22–JUN'22

Mentor: Tuhidas Mukhopadhyay, Assistant Professor in Statistics, R. K. Mission Residential College

- Used logistic regression to predict the likelihood of diabetes in females based on health parameters such as glucose levels, BMI, and pregnancies.

Courses

Official Courses:

Outstanding performance (A* grade)

Mathematics	Statistics	Analytics
Linear Algebra*, Real Analysis*, Numerical Analysis*, Differential Calculus*, Modern Algebra*, Integral Calculus*, Differential Equations*	Regression Analysis*, Probability Theory*, Matrix Algebra and Linear Estimation*, Time Series Analysis*, Multivariate Analysis and Large Sample*, Statistical Inference*, Statistical Quality Control, Analysis of Variance and Covariance*, Design of Experiments*	Sampling and Statistical Computing*, DBMS and Computer Network , Linear Programming

Unofficial Courses:

Online courses (From Coursera and Udemy)

Financial Markets (with Honours) from Yale University,
Predictive Modelling, Model Fitting, and Regression Analysis

Skills

Programming: SQL, Python, Typescript

Relational Databases: Snowflake, Microsoft SQL Server

Cloud: Microsoft Azure , AWS

Web Development: Angular (version 7)

Analytics Tools: Alteryx, Microsoft Fabric, Databricks

Build Tools: Git

Project Management Tools: Jira

Productivity Tools: MS SharePoint, MS Office Suite

Achievements

DST-inspire scholarship for being in the top 1 percentile of students nationwide in higher secondary board exams (2019).

Certifications

2025: Career Essentials in Generative AI by Microsoft and LinkedIn

2024: Microsoft Certified: Azure Data Fundamentals (DP-900)

2023: Microsoft Certified: Azure Fundamentals (AZ-900)

Conferences & Workshops

Workshops:

- Participated in internal PwC India sponsored AWS Certified Cloud Practitioner workshops.

Extra-Curricular Activities

- Volunteer, BloodConnect Foundation (Nov'22 - Oct'24):** Organized a blood donation camp and participated in six others, donating 13 times and earning "Volunteer of the Month" three times.
